

Ear Piercing

Ear Piercing

Schedule your ear piercing today for only \$75 if you are our patient already. If you are not, the fee for piercing is then \$90.

We offer ear piercing to infants and children, 4 months of age and older. Ear piercing is only available after their second set of vaccines. This service is not billed to your insurance and the fee is due at the time of the appointment. The standard patient fee is \$75.00 and includes ear piercing with a set of titanium earrings, and ear care solution. When piercing the skin, there is always a risk of infection. At TLC Pediatrics our sterilized Medical Grade Titanium earring studs are the best choice for those who may have metal allergies or sensitive skin. They provide maximum comfort and healing after piercing.
